

EIFR'19

**International Workshop
Ethical implications for 4.0 Revolution**

Be Live Collection Hotel, Saïdia Morocco, 26-28 September 2019

<http://smartict.ardti.org/workshops/eifr.html>

Workshop Chairs

- Saida Belouali, Mohammed I University, Oujda, Morocco
- Chantal Charnet, Paul-Valéry University, Montpellier, France

Technical Program Committee

- Diana Hoyos, Caldas University, Colombie
- Nicolás Duque Buitrago, Caldas University, Colombie
- Anas Belouali, Georgetown University, USA.
- Catherine Ruchon, Paul-Valéry University, Montpellier, France
- Mounir Mehdi, Mohammed V University, Rabat, Morocco
- Khalid Jaafar, Mohammed I University, Oujda, Morocco
- Toumi Bouchentouf, Mohammed I University, Oujda, Morocco
- Saber Mohammed I University, Oujda, Morocco
- Sanae Melhaoui, Mohammed I University, Oujda, Morocco
- M. Amine Baddou, Mohammed I University, Oujda, Morocco
- Mohammed Guamguami, Mohammed I University, Oujda, Morocco
- Hanae Belhassani, Mohammed I University, Oujda, Morocco
- Ibrahim BELMIR, Mohammed I University, Oujda, Morocco

Fourth Industrial Revolution, technology is fundamentally impacting, like never before, every aspect of our entire lives. We're facing an inflection point and we are currently in front of some prickly questions regarding potential uses of technology that may not be aligned with the human values. But we have to remember here that technology is not inherently good or bad. It's what we do with it that matters. The essential question is, how can the technology industry ensure that its proposals do not mortgage the entire future of humanity?

We need, as the world is turning digital, to take a look to our humanity, giving the most attention to how the world is rapidly changing.

Data, artificial intelligence and the Internet of Things have overthrown our relationship to knowledge, economy, social life etc.; And it is urgent that every nation or country asks the right questions. It has become deeply irresponsible not to give to that all the necessary attention.

How to manage the world of tomorrow? What values to pass on to future generations? How to maintain free will and consciousness in the face of technological deferment ?

Topics

The themes of the workshop include the following topics :

- Ethics Internet and society
- Ethics and education
- Ethics, big data and artificial intelligence
- Health ethics
- Research ethics
- Ethical implications of deep ecology
- Etc.

SUBMISSION

All presented papers (respecting LNEE author's instructions) will be included in the SmartICT'19 conference proceedings published by Springer's LNEE.

Indexing: The books of this series are submitted to ISI Proceedings, EICompindex, SCOPUS, MetaPress, Springerlink,...

Full details of submission procedures are available at:

<http://smartict.ardti.org/workshops/eifr.html>

Please check EIFR'19 Workshop box in the sessions part of the form. All presented papers (respecting LNEE authors instructions) will be included in the conference proceedings published by Springer's Lecture Notes in Electrical Engineering (LNEE).

Indexing: ISI Proceedings, SCOPUS, MetaPress, Springerlink, ...

Important Dates

Submission deadline: May 15th, 2019

Acceptance notification: **July 1st, 2019**

Camera ready deadline: **July 15th, 2019**

Authors registration deadline: **August 31st, 2019**

Language of the workshop (Only communications)

English, French, Arabic
