Engineering

## The First International Workshop on Wind Energy and Multi-Source Systems Management (WEMSM'19)

Be Live Collection Hotel, Saïdia Morocco, 26-28 September 2019

<http://smartict.ardti.org/workshops/wemsm.html>

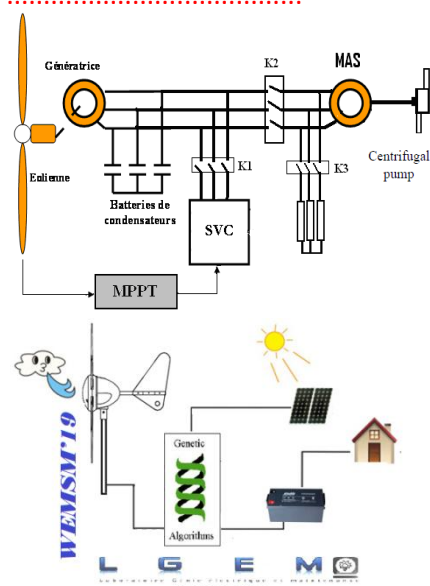

### Workshop Chair

Prof. Smail ZOUGGAR  
ESTO, Laboratory: LGEM- EEGSM  
Mohammed Premier University, Oujda, Morocco

Prof. Mohamed Larbi ELHAFYANI :  
ENSAO, LGEM- EEGSM  
Mohammed Premier University, Oujda, Morocco

### Technical Program Committee

Aboutni Rachid, EST, Oujda, Morocco  
Aziz Abdelhak, EST, Oujda, Morocco  
Jamal Bouchnaif, EST, Oujda, Morocco  
Anas Benselimane, ENSA, Oujda, Morocco  
El Mehdi Abdelmalek, ENSA, Oujda, Morocco  
Elhafyani Mohamed, ENSA, Oujda, Morocco  
Yamini Khelifi, ENSA, Oujda, Morocco  
Hassan ZAHBOUN, EST, Oujda, Morocco  
Taoufik OUCHBEL, EST, Oujda, Morocco  
A. RABHI, University of Picardie, France  
Y.Zaidani, FSTM, Marrakech, Morocco  
Smail ZOUGGAR, EST, Oujda, Morocco  
Nacer Kouider M'SIRDI, LISIS, AMU, Marseille, France  
Aziz Naamane, Polytech Marseille, France  
B.Bossoufi, Faculty of Sciences Dhar El Mahraz,  
Sidi Mohamed Ben Abdellah University, Fez,  
Morocco

The general purpose of this workshop is to get searchers, economists and practicing engineers from different fields relating to Wind Energy and Multi-Source Systems Management to exchange their knowledge and discuss their experience in the area of large-scale integration of wind power into power systems and Multi-Source Systems Management. The emphasis of this workshop is again on both theoretical discussion and practical applications.

The workshop concentrates its activities on research and discussion in the field of wind energy and hybrid systems to optimize the electrical energy produced and minimize the costs of implementation and use.

### Scope and Topics

Topics of particular interest include, but are not limited to:

- Wind Power Systems
- PV Power Systems
- The hybrid renewable energy systems autonom
- The hybrid renewable energy systems connected
- Intelligent Control of a Distributed Energy Generation System
- Energy management and Monitoring
- Grid-connected power systems.
- Optimization of a Multi-source System with Renewable Energy
- Storage of energy: batteries, fuel cells.
- Renewable Systems Interconnection
- Modelling and Reliability Analysis of Multi-source Renewable Energy
- Smart Grid and smart cities
- systems of acquisition and supervision

### Submission Guidelines and Publications

Prospective authors are invited to submit papers to the workshop in any of the areas of interest. Submitted papers must be written in English. The paper should not exceed 8 pages in length, including all figures, tables, and references, using the template. However, authors can add up to 2 extra pages with the appropriate fee payment (total MAX. 10 pages). All submissions should follow the instructions of the template. Further details are available on the webpage: <http://smartict.ardti.org/workshops/wemsm.html>

Papers should be original and not previously submitted to other Conferences or Journals. All submissions will be reviewed on the basis of relevance, originality, importance and clarity following a double-blind peer review process. One of the authors of an accepted submission must attend the conference and present their work (in the form of either oral or poster presentation) as a condition of publication. For interested participants for this workshop, please choose "WEMSM'19". The full papers should be submitted in PDF format to the [WEMSM'19](http://wemsm19.org) online submission system.

### Important Dates:

**Submission deadline: May 15<sup>th</sup>, 2019**  
Acceptance notification: July 1<sup>st</sup>, 2019  
Camera ready deadline: July 15<sup>th</sup>, 2019  
Authors registration deadline: August 31<sup>st</sup>, 2019
